

FORSNAS LODGE

In Swedish Lapland
River and wilderness around the corner

FORSNAS LODGE

Forsnas lodge is actually 2 accommodation houses from the settlers generation. Easier's way to get here is by boat over the River. The Lodge has 6-8 beds/house.

6-8bed in each house, and a kitchen, sauna and shower. Four boats with motors will you find directly close to the Lodge.

Here can you relax with your family, friends, or working college. The environment's is the Nordic taiga area with pine trees and of course the river, one of Sweden's four national rivers. Wish is started at the Norwegian border at the large glacier Sulitjelma. In the river will you find species as Nordic Pike, Perch, Grayling, Brown trout as our white fish, wish is a really nice fish to eat.

What to do

Fishing with your friends in the river or in some of the lakes in the area, why not try to catch a really large Pike. Do your fishing from land or by boat, or in bay with a belly boat.

Do a drifting trip with over nights in traditional Sámi tents or in our cabin in road less area.

Do a visit at the reindeer and hear how the Sami people lives now. Or do a hiking up above the tree line for some fishing and maybe do a overnight in tent.

The possibilities are plenty in this amazing area.

An example on a Program

Program

Day 1

Arriving day, we meet you up in Arvidsjaur for further transfer to FORSNAS Lodge. Check in and a welcome dinner.

Day 2

After breakfast; possibility to go for bike cycling or fishing, we can do both under the day, we have boats incl. motor that you can use as you want. We make up an outdoor fire and might prepare some food on it.

Day 3

After breakfast; we take the boat over the river and a shorter transfer, we go for hike above the tree line. Here is an amazing view and possibility to fish for brown trout. This will be a day at the bare mountains. Possibility to stay one night in tents.

Day 4

After breakfast; fishing in the river for Grayling, Pikes and Perch. Maybe we prepare something of that we caught on open fire. If we have been overnight at the bare mountain are we do some fishing there, maybe some hikes to some top.

Day 5

Starting the day with breakfast; today are we do a trip in the Taiga forest and visit an smaller river for some fishing and pick some mushrooms.
